MEHARMA ARIF

FRONTEND DEVELOPER

+92 325 8713722 | meharmaarif42@gmail.com | www.linkedin.com/in/meharma-arif-developer/

PROFESSIONAL SUMMARY

A dedicated and detail-oriented Software Engineering student specializing in Frontend Development with a proven track record of building responsive, user-centric web solutions. Equipped with a strong foundation in Object-Oriented Programming (OOP), computer science fundamentals, and real-world internship experience. Adept at collaborating in fast-paced team environments and passionate about turning complex problems into intuitive digital experiences.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, HTML5, JavaScript, React.js, Tailwind CSS, Next.js
- **Core Concepts:** Object-Oriented Programming (OOP), File Handling, Data Structures (DSA)
- **Development Focus:** Frontend Web Development, Mobile UI Design
- **Tools & Software:** Git, GitHub

EXPERIENCE

Web Development Intern **JULY 2026 - Present**

TechTideCo.

- Built responsive web solutions with a focus on performance and user experience.
- Collaborated on real-world projects, transforming ideas into functional web interfaces.
- Enhanced problem-solving and frontend development skills through hands-on development tasks.

Frontend Development Intern **MAR 2025 - FEB 2026**

UDEVS

- Collaborated with cross-functional development teams to build, optimize, and deploy responsive UI components using modern web technologies.
- Worked directly under the mentorship of CEO Usama Aslam, adopting industry-standard engineering workflows, version control, and agile practices.
- Gained hands-on exposure to practical software design cycles by handling real-world backend logic.

EDUCATION

Bachelor of Science in Software Engineering

Green International University — Lahore, Pakistan

- Focused on core software engineering principles, object-oriented programming, and advanced software design methodologies.
- Actively completed practical engineering lab assignments, developing problem-solving skills and a strong understanding of the software development life cycle (SDLC).

Intermediate in Computer Science (ICS Physics)

Cantt Public College for Women — Lahore, Pakistan

- Developed core foundational concepts in computer science, logic building, and computational mathematics.
- Covered essential technical concepts and completed academic lab requirements, creating a strong base for advanced software engineering studies.

PROJECTS

Shop AI (Entrepreneurship Project)

- Developed an AI-driven security application designed to detect fraudulent e-commerce stores, verify digital trust signals, and compute safety scores for online shoppers.
- Demonstrated high-level team management, project scoping, and cross-functional problem-solving.

Cooking App (Mobile Development)

- Engineered a user-friendly mobile application featuring intuitive recipe navigation, itemized ingredient checklists, and structural step-by-step cooking guides.

Recipe Finder (Web Development)

- Recipe Finder is a web application that allows users to search and explore recipes using an API. Users can view recipe details, ingredients, instructions, and save their favorite recipes for easy access.

ATM Management Simulation (C++ & Python)

- Programmed a multi-featured banking console providing secure PIN configuration, transaction logging, and administrative oversight options.
- Integrated Python scripting to dynamically generate visual data graphs for cash flow trends.

CERTIFICATIONS

- Leadership Certification (GR Framework)
- Professional Internship Accreditations
- Entrepreneurship BootCamp Graduate
